

Useful Forms

Maternity Benefit Form - MB10

Use this form to apply for maternity benefit. It should be signed by your doctor and returned to the maternity benefit section of the department of social protection not less than 6 weeks before you intend to go on maternity leave. See www.welfare.ie for download

MED1 Form

Use this form to claim tax relief on all general medical expenses which are not covered by the state or by private health insurance. You can only claim for medical expenses if you have receipts to prove your claim. See www.revenue.ie for download

Drug Payment Scheme Application Form

Use this form to apply for a Drug Payment Scheme Card to assist you in paying for your medications if you do not have a full medical card. See www.hse.ie for download

Driving Licence Forms

Driving Licence Eyesight Test Form and Driving Licence Medical Report Form both require a doctor appointment. Full details see www.ndls.ie for download

EHIC

The European Health Insurance Card (EHIC), allows the holder to access health care services at no cost when travelling to or on holiday in another EU or EEA country. This is a great service and should be top of your list of things to get sorted if you're planning to travel abroad. See www.hse.ie on how to apply.

Long Term Illness Scheme

If you are suffering from certain long term conditions you should use this form to apply for a long term illness book which will ensure that you do not have to pay for drugs, medicines and medical appliances associated with the care and treatment of your condition. This form will require a signature from your doctor. For conditions covered by the Long-term Illness Scheme see www.hse.ie

Mission Statement

We believe you should be able to approach your GP about any medical worry you have and expect to be treated with respect, while leaving with a good understanding of the problem and the prescribed treatment. Your GP should be like an interpreter for your body to give you a better understanding of what is wrong and why in plain English. We aim to make you feel at ease during times of physical and mental stress. We are also happy to see you when you feel perfectly well and just want to come in for a check-up. Preventive medicine is vital for a healthy future.

We believe in putting the patient first and try to offer appointments at times to suit you and your working day.

On average 90% of your medical problems can be dealt with directly by your GP without the need for further referral. General practice is by far the most efficient component of Ireland's health service, with rapid access to appointments and expertise. Here at Slievemore General Practice, we offer you a broad and comprehensive range of services so you can get as much as possible under one roof.

Caring for our patients since 1983

Injections

- Vitamin B12
- Annual Flu Vaccine
- Pneumococcal Vaccine
- Travel Vaccines

Childhood Vaccinations

At Slievemore Clinic, we offer a comprehensive childhood vaccination service to all, from the age of two months.

For full schedule of immunisations please see www.hse.ie

VARICELLA (chicken pox vaccine)

The varicella vaccine requires two vaccinations, with 4 to 6 weeks between each vaccine. To arrange this appointment please make an appointment with your GP for consultation prior to making the appointment with the practice nurse for the vaccination to be given. Please note GP and Nurse appointments can be made on the same day. Child must be over a year old.

ECG

Electrical tracing of the heart to assist diagnosis of heart conditions.

24 Hour BP Monitoring

The practice can provide portable medical equipment that will monitor blood pressures at regular intervals over 24 hours. A prior GP consultation is required.

Ear Irrigation

Ear irrigation is a routine procedure used to remove excess earwax, called cerumen, or foreign materials from the ear.

Spirometry & Nebulisers

- Full lung function testing.
- Inhaled treatment for acute asthma.

Haematology

Full comprehensive blood testing. Appointments to be made for weekday mornings. In order to make an appointment a prior consultation with your GP will be required.

Minor Surgery

All surgery requires a presurgical assessment consultation.

- Ingrowing Toenails
- Moles
- Cysts
- Lipomas
- Sun Damage
- Nasal Cautery
- Nasal Packing

Cryotherapy

Cryotherapy involves removal of skin lesions including warts, verrucae, solar skin damage & skin tags by freezing with liquid nitrogen. Appointments for cryosurgery can be made with any doctor. In some cases it will not be appropriate to use cryotherapy, depending on the diagnosis and the patient's age especially in young children

Diabetes Watch

The Diabetes Watch Clinic is run by our Practice Nurse and monitors patients who have been diagnosed with diabetes. Nurse Lita Griffin organizes the HSE Diabetes Shared Care services to hold clinics within our facility to look after our patients. Once accepted into the programme there will be no charge for this service.

Heart Watch Programme

Our Practice Nurse and Dr. Conor O'Toole run the Heart watch Programme. The Programme monitors patients who have been diagnosed with heart disease.

- It offers Comprehensive Cardiac Monitoring
- Please consult your doctor to find out if you are eligible for this programme
- 3 monthly review
- All blood tests and 3 monthly visits included
- Strict protocols

Pre-Employment Medical

The Practice provides a comprehensive medical service for corporate clients. Services include pre-employment medicals.

Driving Licence Exam

To renew your driving licence you may require a Driving Licence Medical Report and need a Driving Licence Eye test. The Practice provides basic eye testing for such requirements and other purposes. Both exams require a consultation with your doctor.

Travel Vaccinations

Slievemore General Practice is a licensed Yellow Fever Centre. Travel vaccinations available (held on site) include Hepatitis A, Hepatitis B, Typhoid, Yellow Fever, Tetanus, Diphtheria, Tetanus and Polio.

Fees

Please see our price list displayed in the Slievemore General Practice waiting room or ask at the front desk, alternatively visit www.slievemoregp.com. If you have private health insurance, depending on your level of cover, your insurer will more that likely cover the cost of any Minor Surgery procedure or your Cryotherapy appointments. You will just need to bring your insurance number and sign the correct form on the day of consultation.
